

# Drakoa Terms Overview

Plain-language guide | September 29, 2026

This guide summarizes the Drakoa Terms of Service. The full Terms and any Order presented for a purchase control if this overview omits detail.

## Using the website and applying

Adults who complete the eight-question scorecard receive a preliminary route. Submitting the form or booking a call does not guarantee acceptance or paid access. The current form asks applicants to confirm they are in the United States.

## What a purchase includes

The specific Order presented before payment identifies the price, access period, included features and support, any renewal, and the cancellation and refund terms. Demonstrations and features marked coming soon are not included unless the Order says so.

## Trading decisions and risk

Drakoa provides market-analysis, decision-support, discipline, and educational tools. It does not place trades or manage customer funds. Outputs and human comments can be wrong or late. You decide whether and how to trade. Futures and leverage can cause substantial losses; no outcome is guaranteed.

## Accounts and community

Keep account credentials private. Do not share or resell access, redistribute protected materials, harass others, or treat community posts as trade commands. Official support or community access is included only when your Order says so.

## Privacy and third parties

The Drakoa Privacy Policy explains personal-data handling. Calendly, Zoom, Discord, payment providers, brokers, and other outside services have their own terms and notices. Optional marketing consent is separate.

## Changes and help

Features can change or be interrupted. A material reduction in a paid benefit is handled under the applicable Order and law. For questions or concerns, contact [legal@iandaindustries.com](mailto:legal@iandaindustries.com).

## Full Terms of Service

Read the [Drakoa Terms of Service \(PDF\)](#) for the complete terms.
